

## Permit Expediting Services

You've signed your lease, retained an architect and designer and think you're set, right? There's still one more step and that's to file for and obtain your building permit.

PPESI will work directly with your architect to ensure all items required are included on the plans and have them send the finished product to our office. We will take the plans and your check for the permit fees to Anne Arundel County's permit office and in many cases be able to walk out that same day with a permit in hand.

We take the worry out of this phase of your project and allow you to concentrate on other aspects of the job. You don't have to step one foot in the permit office.

Our fee to expedite your permit is \$650, due when the plans arrive in our office.

Should you have any questions or would like to discuss the process and how it all works, please feel free to contact Michelle Jefferson.
